Preface

When several words seem to have almost the same meaning, how do you choose the right word so that you express exactly what you want to? This book groups words with similar meanings (known as ‘synonyms’) together and gives each a definition and example so that the similarities and differences are made clear.

Anyone who wants to write clear and accurate English, using the correct word in a particular context, will find this book helpful, and a useful companion to the *Easier English Basic Dictionary*.

Groups of similar words are arranged alphabetically under the main word for the particular meaning being illustrated, so words meaning ‘big’ are given at **big**. The ways in which these similar words are used in different situations are compared.

Words with an opposite meaning to the main meaning being illustrated (known as ‘antonyms’) are also given.

If you are not sure which group the word you are checking might appear in, you can find all the words in an alphabetical list at the end of the book with a reference to the place where they appear. By using this list you will be able to find possible alternative words to use for the basic word you already know.

ability *noun***Synonyms:** *ability, skill, competence, talent, capability***Antonym:** *inability***Synonyms:****ability**

a natural tendency to do something well

*I admire his ability to stay calm in difficult situations.***skill**

the ability to do something well as a result of training or experience
